Account Redesign

Redesign the account service to use the Aurora design system and adjust design and layout to fit with the new common navigation.

Amable Rodríguez
v1.0 / 2018-12-19

Current App

- Support to all existing features

The screenshot displays the current GCcollab Account application interface, which includes the following sections:

- Sign in:** A form for logging in with an email address (amable.rodriguez@tbs-sct.gc.ca) and password, featuring a "Forgot password?" link and a "Login" button.
- Security:** A section for managing two-factor authentication, including fields for current password, new password, and confirm password, along with a "Confirm" button.
- Account Settings:** A dashboard showing account details (Welcome Amable Rodriguez), profile information (Name: Amable Rodriguez, Email: amable.rodriguez@tbs-sct.gc.ca), and options for security (Security) and tools (Tools). It also includes a "Logout" button.
- Active sessions:** A list of signed-in devices, including Chrome on OS X, Chrome on Windows 10, and Chrome on OS X, each with a "Logout" button. A red "End All Other Sessions" button is located at the bottom right.

Ethan's proposal inspired by Microsoft Account

- Big top bar with info
- Big sections
- Gradients
- Nice to have: “Fluent Design” (animated icons)

The image displays three screenshots illustrating the design of a user account interface.

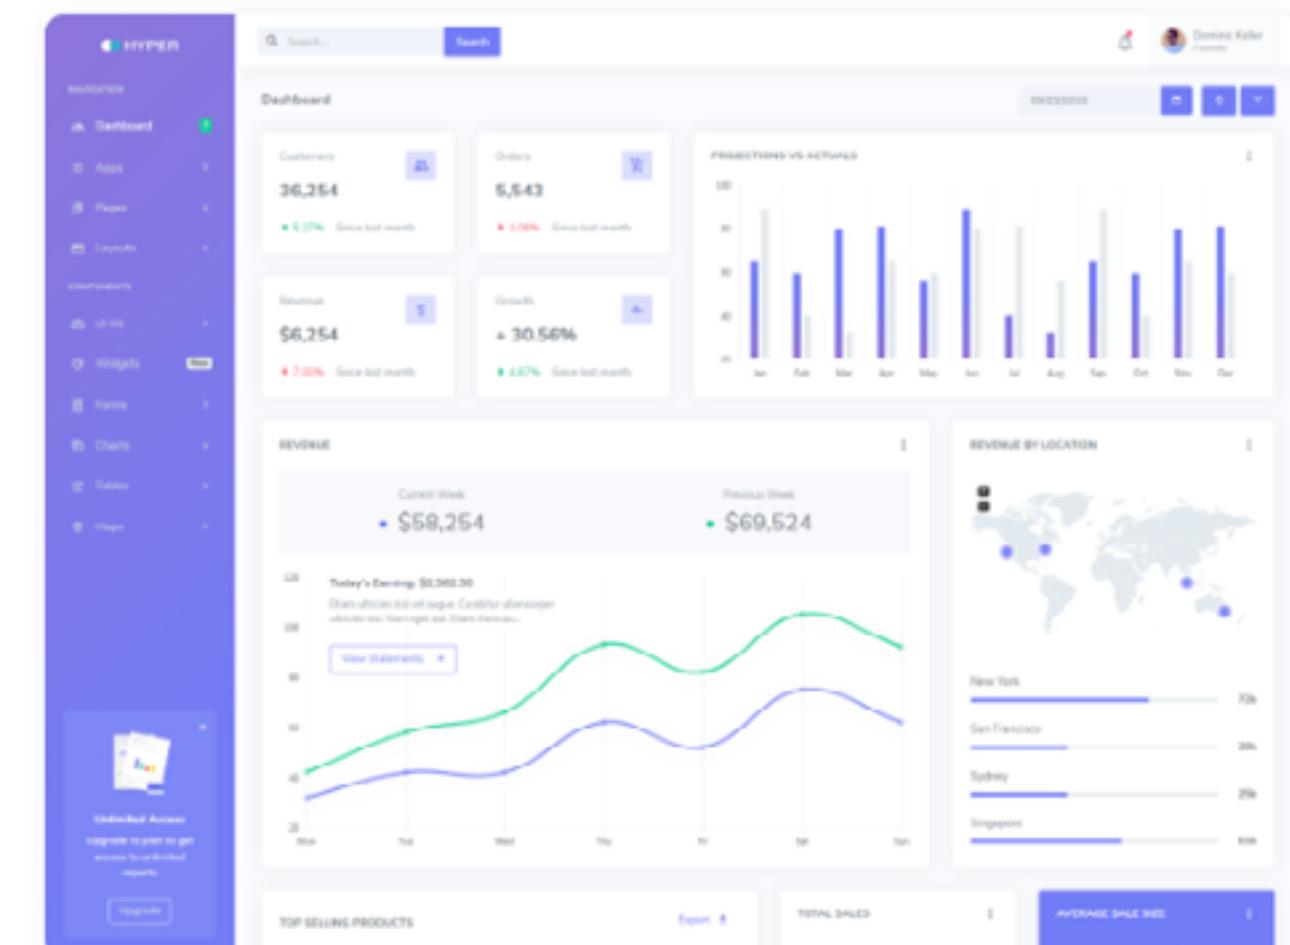

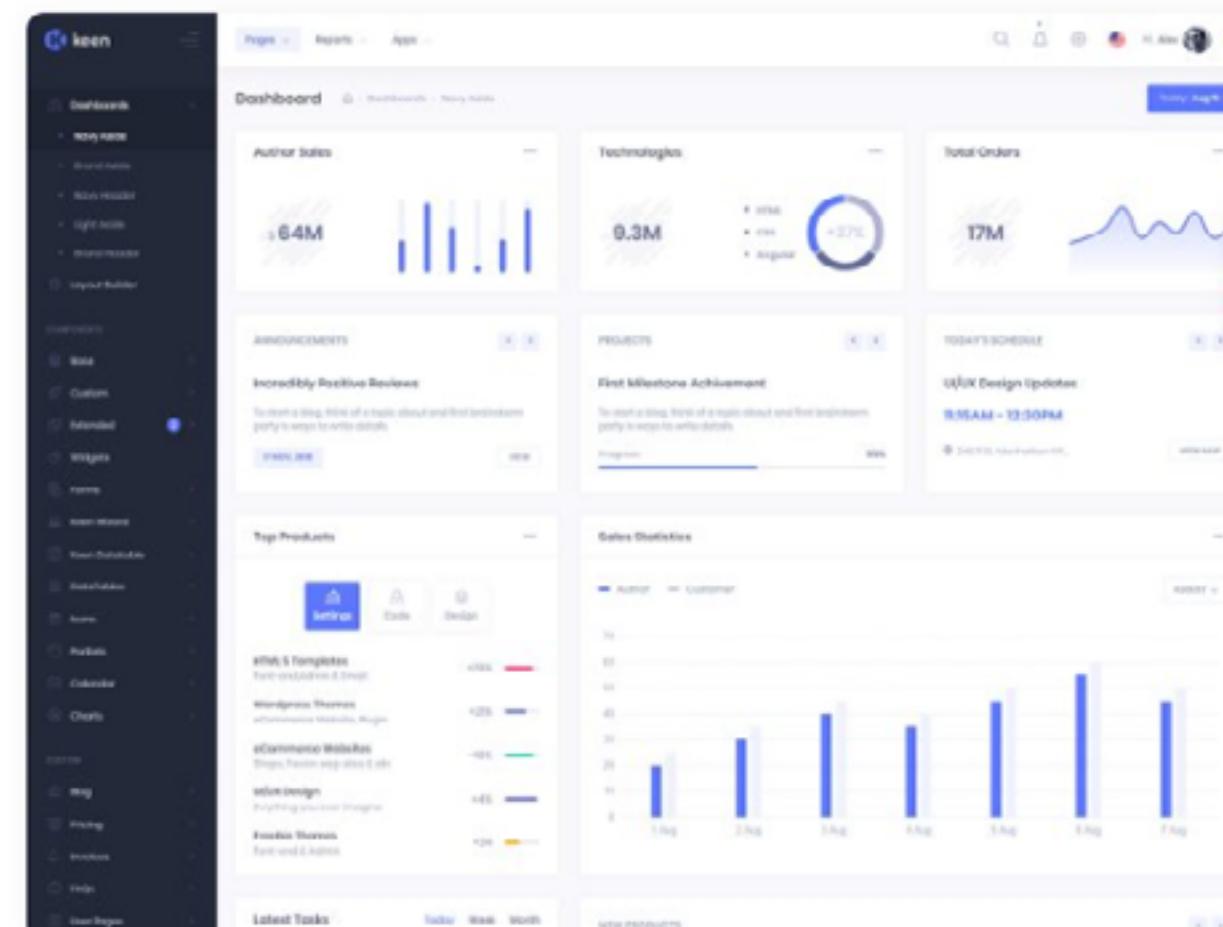

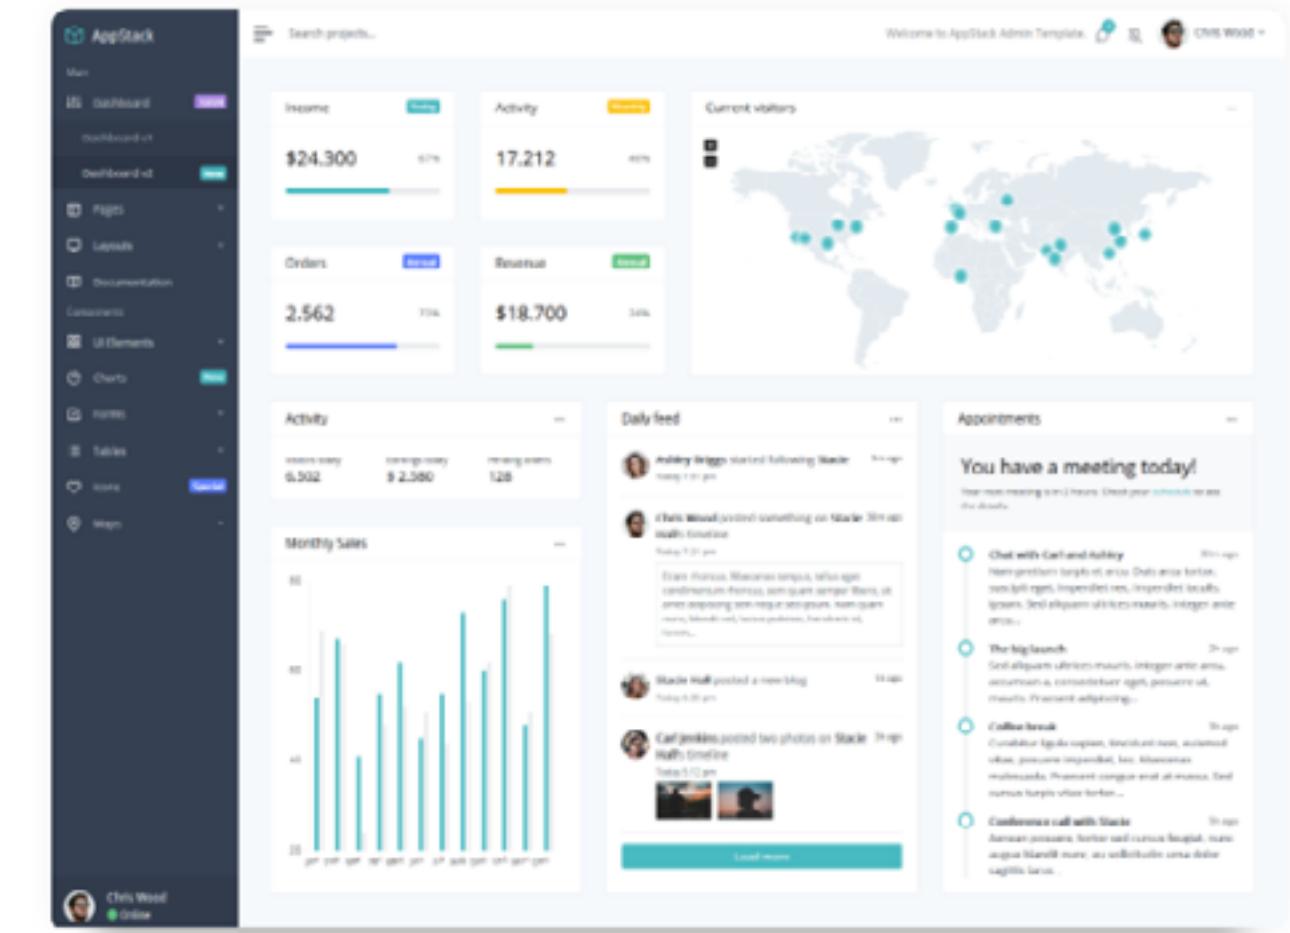

Microsoft Account Dashboard: This screenshot shows a top navigation bar with links for Account, Your info, Privacy, Security, Rewards, Payment & billing, Services & subscriptions, Devices, and Family. Below the navigation is a profile section for "Andrew Baker". To the right, there are sections for "Microsoft account" (Available points: 161, Manage), "Devices" (22, Manage), and "Subscriptions" (Try Office 365 for free!, Start your free trial). A "Payment & billing" section is also present.

GCaccount Home Screen: This screenshot shows a similar layout with a top bar and a profile section for "Ethan Wallace". It features a grid of cards for managing account details, sessions, devices, connected apps, and security questions. A "Tools" section at the bottom includes links to GCcollab, GCmessage, GCwiki, and GCconsultation.

GCaccount Security Questions Screen: This screenshot shows a "Security Questions" section where users can select three questions and enter answers. It includes fields for "Question 1", "Answer 1", "Question 2", "Answer 2", and "Question 3", "Answer 3". A "Save answers" button is located at the bottom right.

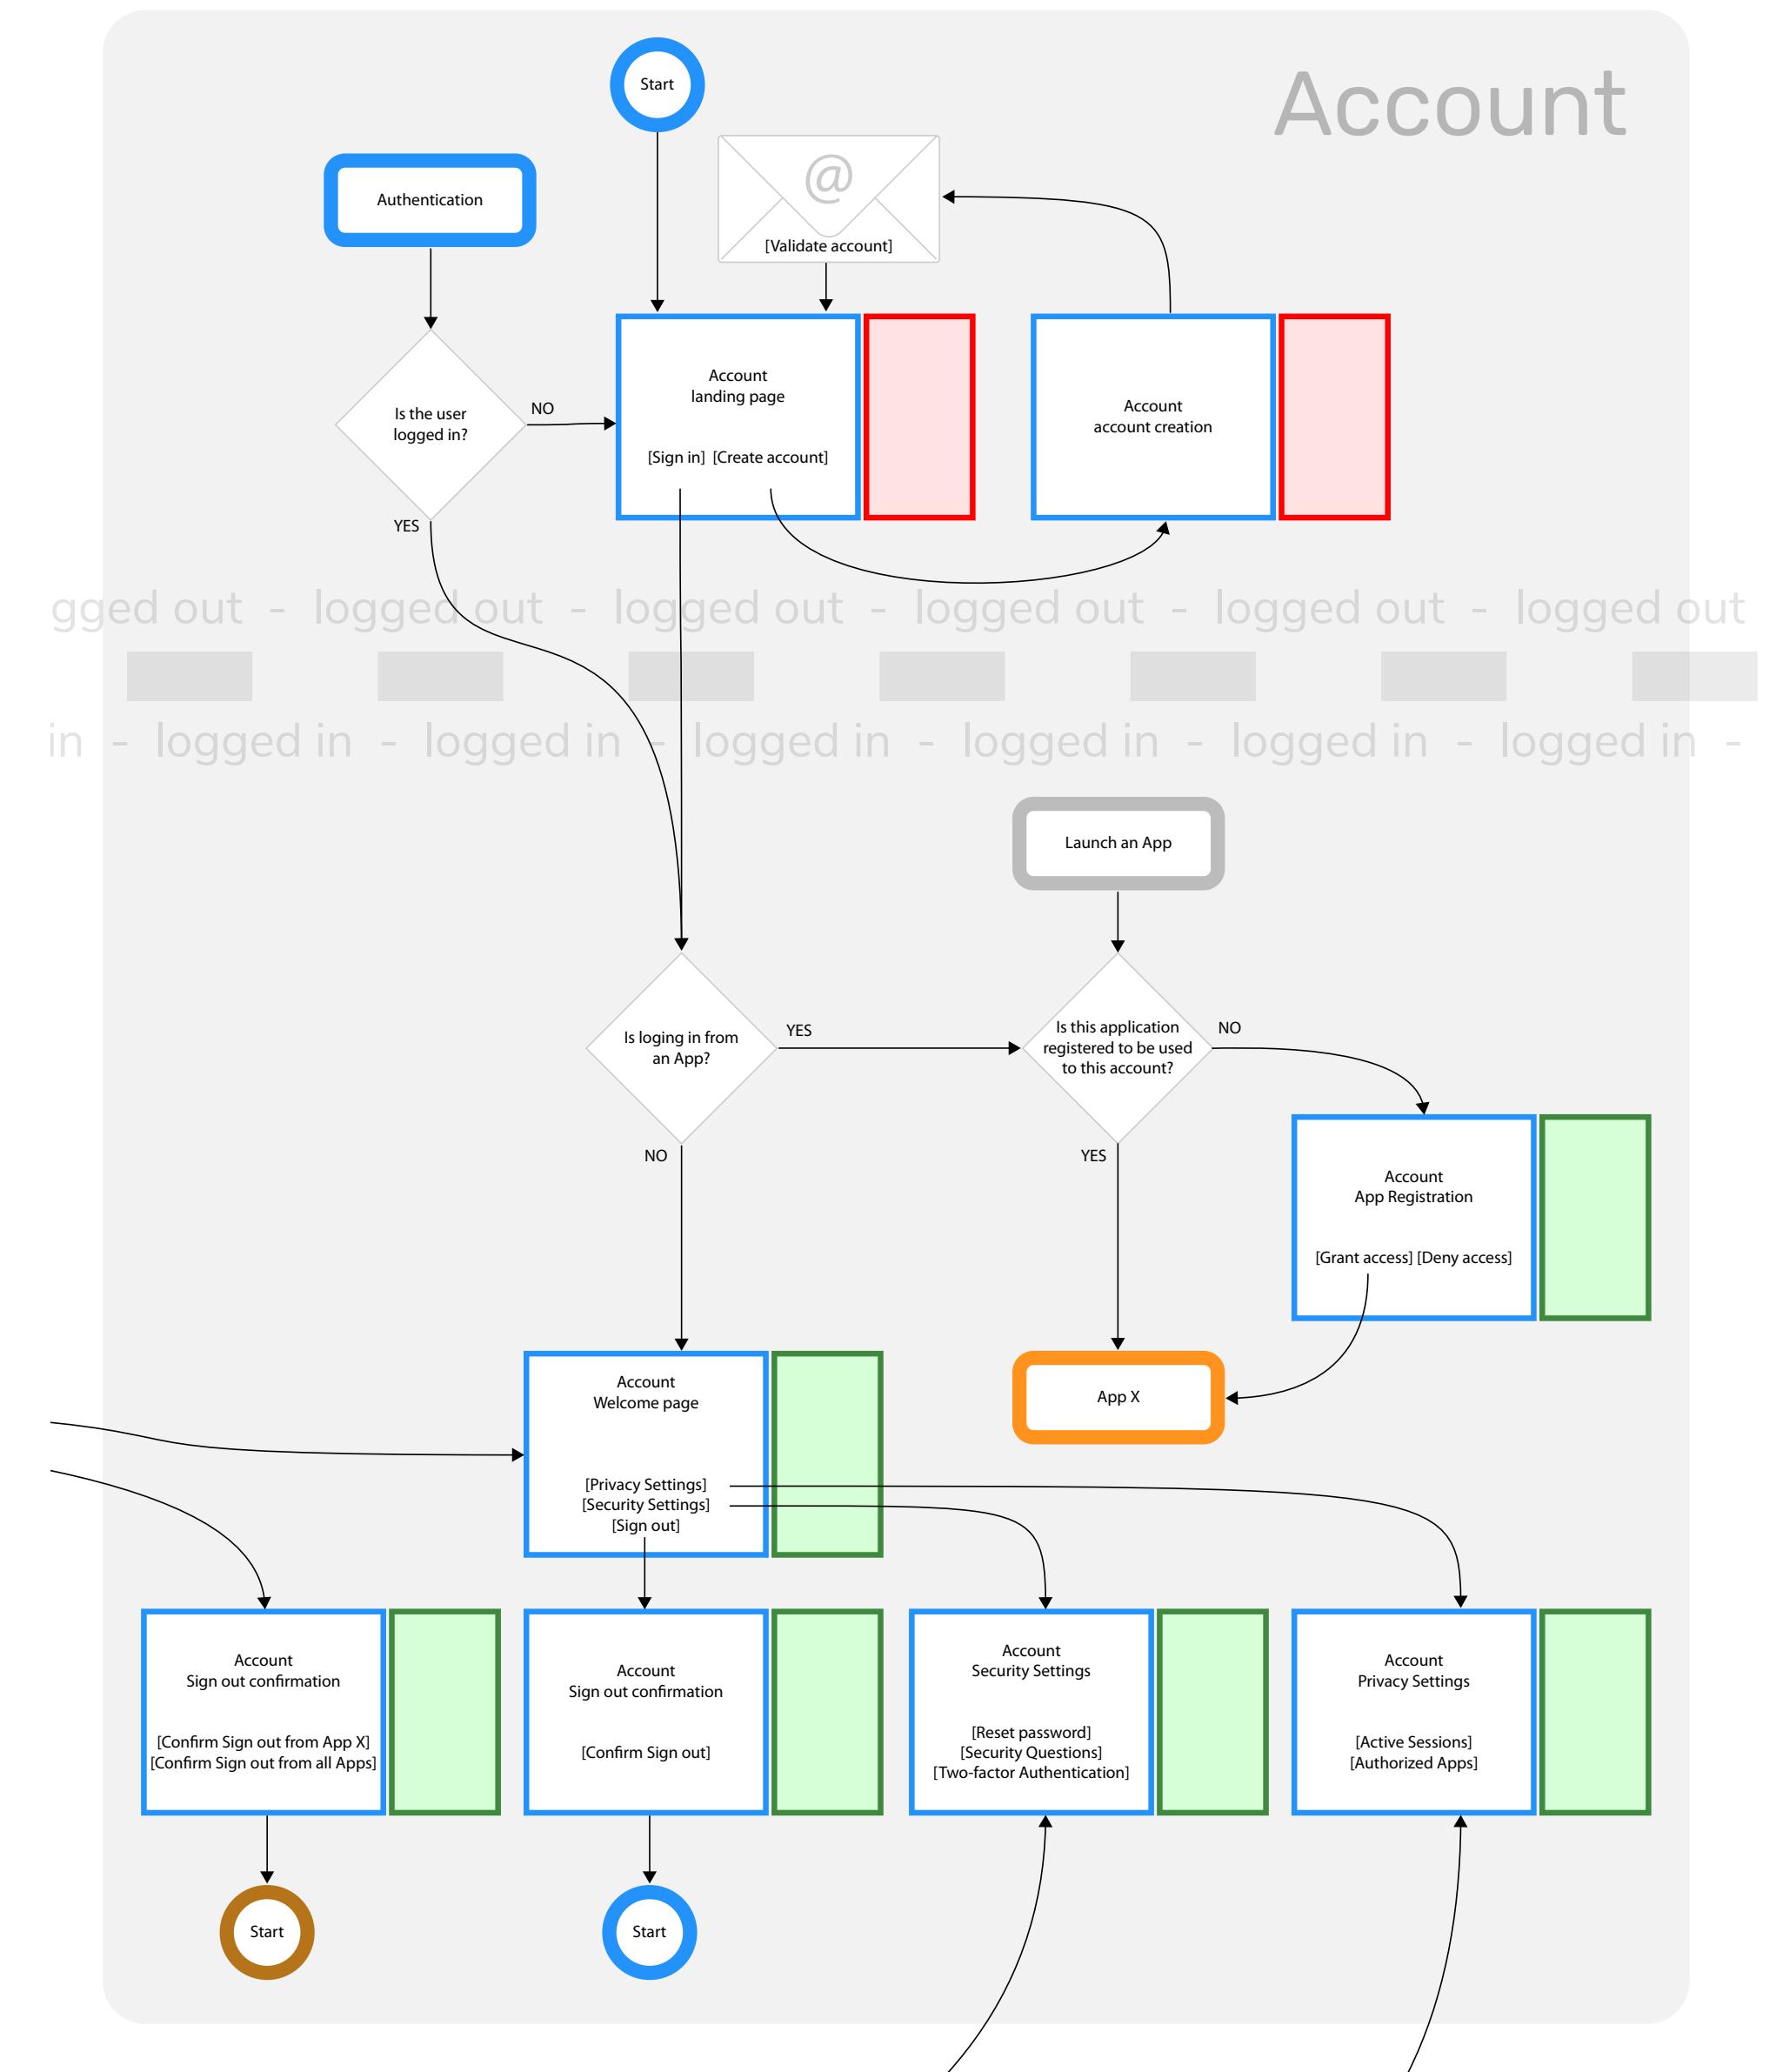

Bootstrap themes

- Clean and simple
- Smart use of accent colors
- Space to breathe
- Good use of contrast

Account logic and flow

- Some elements has been re-organized
- Needs to have support for future options

Aurora Design System

- Content ordered on cards
- Visual and text combined
- Make use of action buttons

Card Examples

Card Examples

The image shows a grid of six cards, each featuring a placeholder image of a landscape with a sun and mountains. The cards illustrate different layout variations:

- Top Left Card:** A single large card with a placeholder image at the top. Below it, the text "Main title" is followed by "Meta information" and a descriptive text block.
- Top Middle Card:** Similar to the first, but with two horizontal grey bars above the descriptive text, likely for additional meta-information or secondary data.
- Top Right Card:** A single large card with a placeholder image at the top. Below it, the text "Meta information" is followed by "Main title". A descriptive text block follows, with "Secondary" and "Primary" buttons below it.
- Bottom Left Card:** A single large card with a placeholder image at the top. Below it, the text "Header" is followed by "Main title", "Meta information", and a descriptive text block. At the bottom, there is an "Action" button.
- Bottom Middle Card:** A single large card with a placeholder image at the top. Below it, the text "Header" is followed by "Main title", "Meta information", and a descriptive text block. At the bottom, there is an "Extra information" icon.
- Bottom Right Card:** A single large card with a placeholder image at the top. Below it, the text "Header" is followed by "Main title", "Meta information", and a descriptive text block. At the bottom, there is an "Extra information" icon.

Common Navigation and additional designs

- Designs needs to look and feel like part of the same family
- Options needs to correspond to icons already used on common navigation

UX Design : Account - [3498] Account Redesign

The image displays a collection of user interface (UI) designs and prototypes, likely from a design sprint or redesign project. The designs include:

- GCcollab Account:** Includes a sign-in screen, account settings (Profile, Security, Two-factor authentication), and active sessions.
- GCwiki:** A public wiki platform for sharing ideas and knowledge, featuring a main page, discussion, and various administrative tools.
- Card Examples:** A series of cards illustrating different design patterns for card-based interfaces.
- GCaccount:** A dashboard for managing account details, security questions, sessions, connected apps, and two-factor authentication.
- GCTools:** A flowchart illustrating the account lifecycle and various tools available.
- OADW Applications:** A search interface for finding OADW applications.
- Account Flowchart:** A detailed flowchart showing the account creation and login process.
- Dashboard Examples:** Multiple examples of data dashboards with various metrics and visualizations.
- Payment & Billing:** A dashboard for managing payment and billing information, devices, subscriptions, and family accounts.
- Security Questions:** A form for selecting security questions and answers.
- GCcollab Account Redesign Mockups:** Mockups of the account settings and active sessions pages, showing a modernized design with a blue header and purple accents.

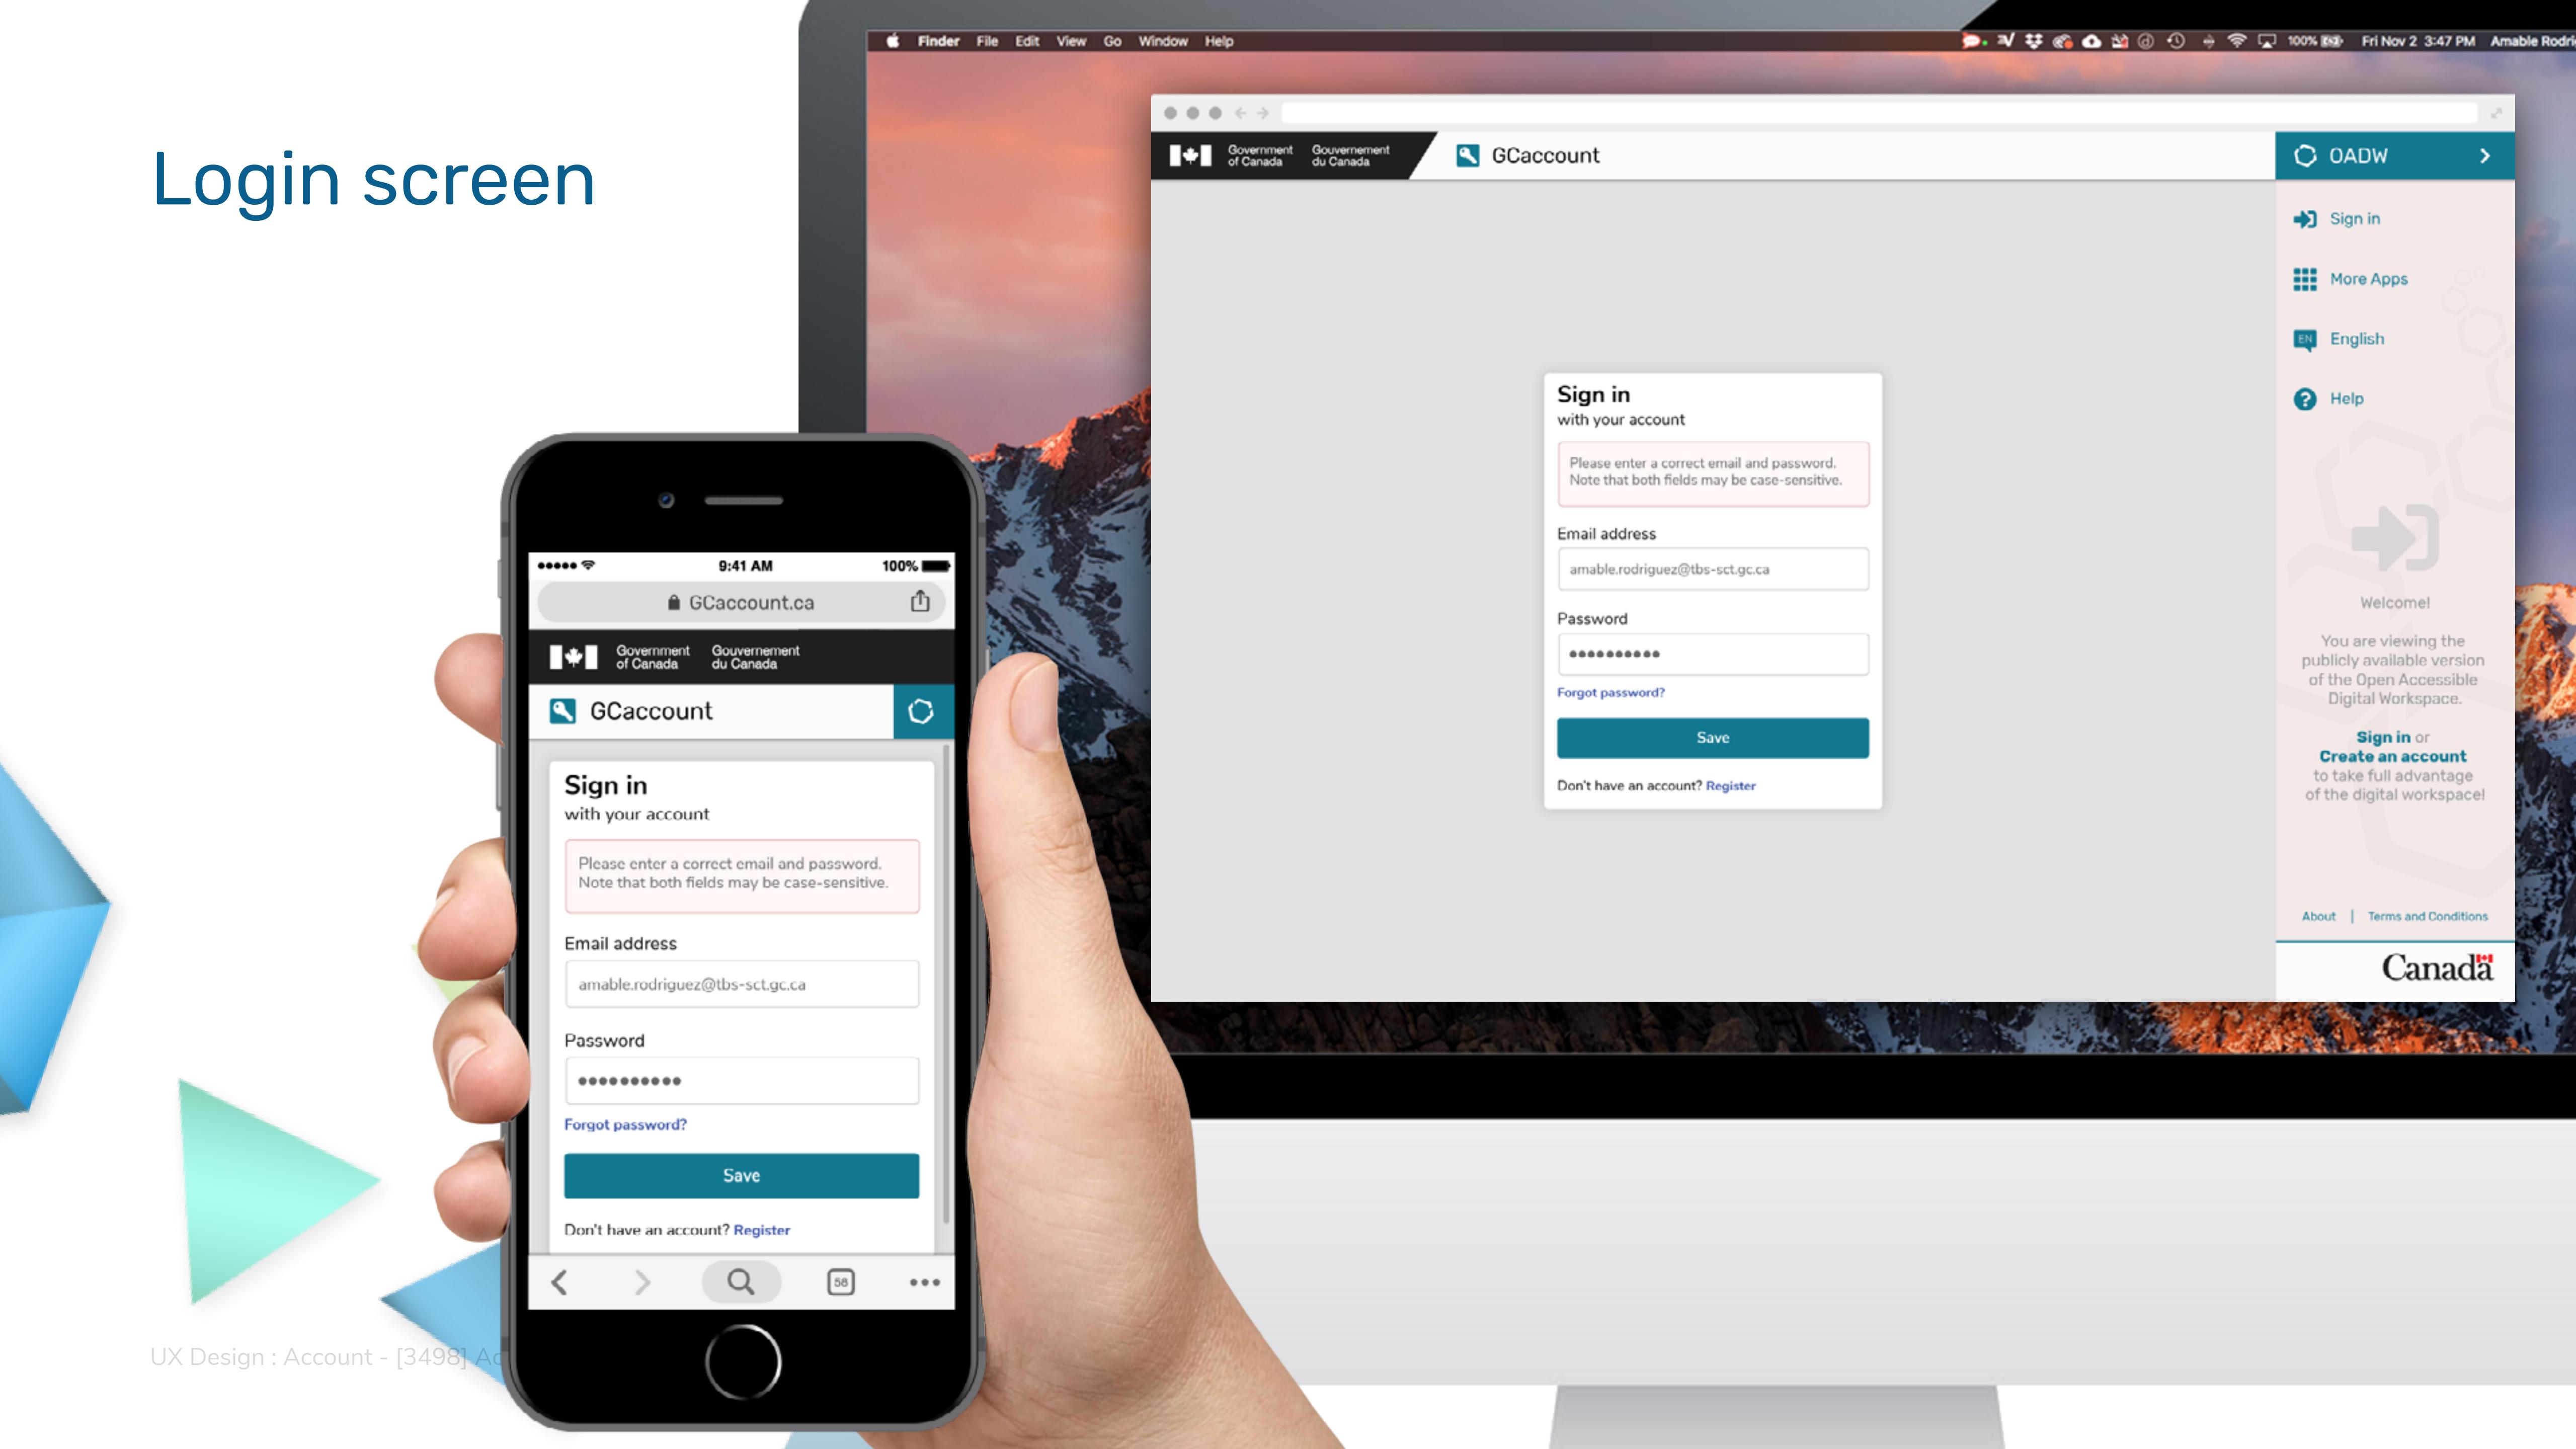

The Challenge

- Support to all existing features
- Big top bar with info
- Big sections
- Gradients
- Nice to have: “Fluent Design” (animated icons)
- Clean and simple
- Smart use of accent colors
- Space to breathe
- Good use of contrast
- Some elements has been re-organized
- Needs to have support for future options
- Content ordered on cards
- Visual and text combined
- Make use of action buttons
- Designs needs to look and feel like part of the same family
- Options needs to correspond to icons already used on common navigation

The Concept

Login screen

Welcome Screen

Mobile App Menu

The image illustrates a mobile application interface, specifically the GCaccount mobile app menu, displayed on a smartphone held in a person's hand. The phone's screen shows a dark blue header with the app logo and name, followed by a vertical navigation menu with items like Welcome, Privacy Settings, Active Sessions, Authorized Apps, Security Settings, Reset Password, Security Questions, Two-factor Authentication, and Sign out. The background of the phone's screen features a scenic mountain landscape at sunset.

The desktop version of the GCaccount interface is visible in the background, showing a similar layout with a sidebar menu and a main content area featuring three cards: Privacy Settings, Security Settings, and Sign Out. The desktop version also includes a top navigation bar with the Government of Canada logo and a search bar. The overall design is clean and modern, using a color palette of blues, greys, and earth tones.

UX Design : Account - [3498] Ac

1st Level Navigation

UX Design : Account - [3498] Ac

2nd Level Navigation

The image illustrates a user interface design for a government account management system, specifically focusing on second-level navigation. It shows a hand holding a smartphone displaying a mobile version of the GCaccount.ca website. The mobile screen shows the 'Active Sessions' page, which lists sessions on 'Chrome on OS X' with the location as 'unknown - 0 minutes ago'. Each session has a 'Logout' button. Below the table are 'Close' and 'End all other sessions' buttons. In the background, a desktop computer screen displays the same 'Active Sessions' page, showing multiple entries for 'Chrome on OS X' sessions. The desktop interface includes a sidebar with options like 'Welcome', 'Privacy Settings', 'Active Sessions', 'Authorized Apps', 'Security Settings' (which is expanded to show 'Reset Password', 'Security Questions', 'Two-factor Authentication', and 'Sign out'), and a 'Logout' button. The desktop version also includes a header with the Government of Canada logo and a search bar. The overall design emphasizes consistency across devices and provides users with detailed session information and control options.

This screenshot shows the 'Privacy Settings' section of the GCaccount portal. The main header includes the Canadian flag and the text 'Government of Canada / Gouvernement du Canada'. Below the header, the title 'GCaccount' is displayed with a key icon. A notification badge with the number '6' is visible in the top right corner. The main content area has a teal header bar with the text 'Privacy Settings' and 'Your active sessions and authorized apps.' Below this, there are two main sections: 'Active Sessions' and 'Authorized Apps', each represented by a large icon (a card and a smartphone respectively) and a descriptive subtitle. At the bottom of each section is a teal button labeled 'Manage [sessions/apps]'. On the left side, a vertical sidebar contains links for 'Welcome', 'Privacy Settings', 'Security Settings', and several other account management options like 'Reset Password' and 'Two-factor Authentication'. A 'Sign out' link is also present at the bottom of the sidebar.

Help

“Will It Blend?”

- Support to all existing features
- Big top bar with info
- Big sections
- Gradients
- Nice to have: “Fluent Design” (animated icons)
- Clean and simple
- Smart use of accent colors
- Space to breathe
- Good use of contrast
- Some elements has been re-organized
- Needs to have support for future options
- Content ordered on cards
- Visual and text combined
- Make use of action buttons
- Designs needs to look and feel like part of the same family
- Options needs to correspond to icons already used on common navigation

The image displays two versions of the GCaccount account settings interface. The left version is a wireframe or early design, showing the layout and basic components. The right version is a final, polished design. Both screens feature a dark header with the Canadian flag and "Government of Canada" text. The main content area has a light background with a dark sidebar on the left containing "Privacy Settings" and "Security Settings" sections with various sub-options like "Active Sessions", "Authorized Apps", "Reset Password", and "Two-factor Authentication". The right side shows three cards: "Privacy Settings" (with a person icon), "Security Settings" (with a lock icon), and "Sign Out" (with a double arrow icon). Each card has a "Modify [setting]" button at the bottom. A navigation bar at the bottom includes "About" and "Terms and Conditions" links, and a "Canada" logo. The right design also includes a user profile sidebar with "Patty Kuttler", "Notifications", "More Apps", "Settings", "English", and "Help" options.
